

Fast vs Slow

Dangerous vs Safe

Sensible vs Stupid

Calling all proactive New Zealanders, (and prospective visitors to NZ)...

Don't mess up this opportunity to transform Auckland. Choose the Safe, Sensible & Sustainable option. Sharing the same space between pedestrians and mass rapid transport is unrealistic and a sure recipe for disaster.

Make a call between LRT('Modern' tram service) or Wiztrak (elevated metro system)!

More info: www.wiztrak.com

Support it here: [Sign the Petition](#) (petition closes soon)
